## Concept Note

The Seminar on Indian Knowledge System aims to act as a vital conduit between India's diverse intellectual heritage and the challenges of the contemporary world. By fostering interdisciplinary dialogue across Science, Technology, Languages, Philosophy, History, and Governance, the Seminar seeks to reinterpret traditional wisdom in ways that are relevant today. A key focus will be on substantiating the idea of *Atmanirbhar Bharat* and its incorporation within the National Education Policy 2020. Thus, it seeks to understand its role in shaping contextually grounded discourses. In doing so, the Seminar aspires to broaden the intellectual horizons of students and faculty. Emphasizing the importance of linking India's intellectual past with its dynamic present, the initiative seeks to cultivate a shared sense of cultural pride and identity.
